Decision Governance Infrastructure for Automated Systems

KEY PARTNERS	KEY ACTIVITIES	VALUE PROPOSITIONS	CUSTOMER RELATIONSHIPS	CUSTOMER SEGMENTS
KEY PARTNERS • ADGM/DIFC regulatory ecosystem • Hub71 accelerator (applied) • AI providers: Google, OpenAI, Anthropic • Cloud: Railway (production 24/7) • Exchange APIs: Kraken, Alpaca • NIST PQC standards body	KEY ACTIVITIES • 6-checkpoint governance engine R&D; • Enterprise API development • Multi-vertical domain adapter design • Shadow Portfolio counterfactual analysis • PQC receipt signing (Dilithium-3) • Regulatory compliance alignment • Execution integrity validation KEY RESOURCES • Proprietary 6-checkpoint architecture • 670,000+ evaluation cycles dataset • 16,000+ PQC-signed governance receipts • 27 Architecture Decision Records • Hexagonal codebase (42+ DB tables) • Shadow Portfolio engine • Solo founder: Harold Nunes	VALUE PROPOSITIONS • Pre-execution decision governance (fail-closed) • 6 independent validation checkpoints • PQC-signed audit trail (NIST-standardized) • Domain-agnostic: trading, supply chain, lending, insurance, energy, robotics • Real-time validation (<120ms latency) • Capital preservation (98.5% during BTC -7.37%) • Publicly verifiable governance receipts • Mathematical audit: 100% P&L; reconciliation	CUSTOMER RELATIONSHIPS • Enterprise-first, founder-led sales • Progressive onboarding: Shadow → Advisory → Enforcement • Live verification system (public) • Interactive governance demos (credit, insurance) • 24/7 operational monitoring • Institutional dashboard (19 widgets) CHANNELS • ADGM/DIFC direct outreach (50/month) • Eureka GCC 2026 (Semifinalist) • Hub71 accelerator program • Industry events: TOKEN2049, GITEX, FinTech Abu Dhabi • LinkedIn + content marketing • Public verification server • Institutional website: omnixquantum.net	CUSTOMER SEGMENTS • Primary (B2B - 80%): • Prop trading firms (ADGM/DIFC: 200+) • Trading platforms & exchanges • Regulated funds & family offices • Secondary (B2C - 20%): • Advanced independent traders • Future verticals (Year 2-3+): • Supply chain, credit/lending, insurance, energy, robotics/autonomous systems

COST STRUCTURE	REVENUE STREAMS
COST STRUCTURE • AI API costs (Gemini, GPT-4o, Claude) • Cloud infrastructure (Railway, Redis, PostgreSQL) • Market data feeds (Kraken, Alpaca, Finnhub) • Regulatory & legal (ADGM formation) • Team: 3 key hires post-funding (Month 1-4) • Break-even target: 18-24 months	REVENUE STREAMS • B2B Enterprise Licenses: \$15K-\$35K/month • Per-Validation API: \$0.01-\$0.05/call • White-Label Engine: \$100K+ setup + \$20K/month • B2C Pro SaaS: \$149/month • B2C Advanced SaaS: \$499/month • LTV/CAC ratio: 18x-84x (enterprise) • Target Year 1 revenue: \$200K-\$400K

OMNIX — Eureka GCC 2026 Semifinalist | Pre-Seed: \$500K @ \$2.5M-\$3M valuation (16.7% equity) | All metrics from internal dataset, not externally audited | Abu Dhabi, UAE

Key Metrics & Validation

Metric	Value	Significance
Production Uptime	24/7 since Nov 2025	4+ months continuous operation
Evaluation Cycles	670,000+	Governance engine processing decisions in real-time
PQC-Signed Receipts	16,000+	100% Dilithium-3 coverage (NIST-standardized)
Capital Preserved	98.5%	During period when BTC dropped 7.37%
Shadow Trade Events	670,000+	Counterfactual analysis of vetoed decisions
Decision Latency	<120ms	Real-time governance validation
P&L; Reconciliation	100%	119/119 trades mathematically audited
Execution Integrity	Kraken-verified	Real fill data from exchange (not estimated)
Database Tables	42+	90% foreign key coverage
Architecture Decisions	27 ADRs	Documented engineering discipline
Combined TAM	\$49.7B+	6 verticals: trading, supply chain, lending, insurance, energy, robotics

Fundraising Summary

Item	Details
Raising	\$500,000 USD (Pre-Seed)
Equity	16.7%
Pre-Money Valuation	\$2.5M–\$3M
Funds Raised to Date	\$0 (bootstrapped)

Item	Details
Stage	MVP (Live Product, 24/7 production)
Competition	Eureka GCC 2026 — Semifinalist
Runway	18+ months to Series A
