

JOINT STACK DEPLOYMENT PIPELINE

OMNIX x Velos

Shared Pipeline Log

Active and prospective joint stack opportunities — maintained per Clause 4.4 of the Supplement to Agreement Clause 10.1

Document Reference	OMNIX-VLS-PL-001
Clause Reference	Supplement to Clause 10.1 — §4.4 Pipeline Transparency
Version	v1.0 — Initial log
Date Issued	11 April 2026
OMNIX Party	Harold Nunes — OMNIX Quantum Ltd
Velos Party	Naimat Khan — Velos
Next Update Due	Within 5 business days of any material development (per §4.4)

STRICTLY CONFIDENTIAL — For use by OMNIX Quantum Ltd and Velos only. Not for disclosure to any third party without written consent of both parties.

Clause 4.4 — Pipeline Transparency

"Both Parties agree to maintain a shared pipeline log of active and prospective joint stack opportunities, updated within 5 business days of any material development."

This document is the first version of the shared pipeline log required under Clause 4.4. It covers all active and prospective opportunities for the OMNIX x Velos joint stack as of the date of this document. Both parties are responsible for notifying the other within 5 business days of any material development on any listed opportunity.

Track	Commercial Structure	Who Bills Client	OMNIX Fee	Velos Fee
Track A — Unified	Single contract, single invoice through OMNIX	OMNIX	70%	30%
Track B — Modular	Velos bills client directly for execution layer	Velos	100% of own module	\$4,500/mo direct

Pipeline Summary

ID	Prospect	Sector	Track	Stage	Est. Value / mo
VX-001	TBD — Eureka GCC Cohort	FinTech / Multi-sector	Track A / Track B	PIPELINE	TBD
VX-002	TBD — Velos Existing Client	Open	Track B	PIPELINE	\$4,500 / mo (Velos direct)

Detailed Opportunity Records

VX-001 — TBD — Eureka GCC Cohort				PIPELINE
Sector	FinTech / Multi-sector	Location	Dubai / GCC	
Contact	Via Eureka GCC 2026 network	OMNIX Layer	OMNIX-TRD / OMNIX-CRD	
Commercial Track	Track A / Track B	Velos Role	To be defined per prospect	
Pricing Tier	TBD	Estimated Value	TBD	
Notes	Eureka GCC semifinal (Harold Nunes) activates network of GCC founders and investors. Joint stack pitch relevant to any autonomous decision system in region.			
Next Action	Velos to flag GCC contacts with execution layer requirements. OMNIX to flag governance mandates.			

VX-002 — TBD — Velos Existing Client			PIPELINE
Sector	Open	Location	Open
Contact	Naimat Khan — Velos	OMNIX Layer	OMNIX-AGT / OMNIX-TRD
Commercial Track	Track B	Velos Role	Velos leads — \$4,500/mo direct. OMNIX retained 100%.
Pricing Tier	Standard	Estimated Value	\$4,500 / mo (Velos direct)
Notes	Track B modular route — Velos bills client directly for execution layer. OMNIX governance module retains 100% of its fee. Clause 4.3 governs engagement process.		
Next Action	Naimat to identify existing Velos clients with governance gap. Written approval from OMNIX required before engagement (per Clause 4.3).		

Update Protocol — §4.4

Material developments requiring log update within 5 business days include: first contact made with a prospect, NDA executed, discovery call completed, proposal submitted, client decision (positive or negative), track change, pricing negotiation initiated, contract signed.

Responsibility	Action	Timeline
Either Party	New prospect identified for joint stack	Notify other party + add to log within 5 days
Either Party	Material development on existing entry	Update log entry within 5 days
Velos	Track B client engagement (per §4.3)	Written OMNIX approval before engagement
OMNIX	Track A proposal to client	Notify Velos before submission
Either Party	Client closes or withdraws	Mark entry CLOSED with date and reason
