

OMNIX

Terra/LUNA Forensic Reconstruction — May 2022

8-Checkpoint Fail-Closed Pipeline — Historical Proof of Architectural Certainty

Document Type	Technical Validation — Historical Case Study
Classification	Investor Confidential — Due Diligence Material
Audience	Institutional Investors, Due Diligence Teams, Technical Advisors
Event Analyzed	Terra/LUNA Collapse — May 11, 2022 — \$40B+ Destroyed
Analysis Window	2022-05-08 → 2022-05-11 (72-hour pre-collapse window)
Framework	OMNIX Decision Governance Infrastructure
Methodology	8-Checkpoint Fail-Closed Pipeline + VITT Forensic Alignment
Generated	March 14, 2026

OMNIX issued a BLOCKED decision 6 hours before the Terra/LUNA collapse — before the irreversible unwinding began. Capital would have been 100% preserved. This is Architectural Certainty.

1. Executive Summary

Metric	Value
Capital that would have been preserved	100% of position value
Time advantage over market	6 hours before irreversible collapse
Governance decision	WARNING at T-72h — BLOCKED at T-24h and T-6h
Cryptographic proof	PQC-signed receipt issued at T-6h (Dilithium-3)
Market losses (without OMNIX)	\$40B+ total ecosystem destruction

2. Methodology

2.1 Data Sources

2.2 Governance Pipeline Applied

Checkpoint	Function	Block Threshold
CP-0 SIV (Signal Integrity Validator)	Validates signal authenticity against structural regime	< 65/100
CP-4 Coherence Engine	Measures consensus across independent analytical models	< 65/100
CP-7 TCV (Temporal Coherence Validation)	Validates signal consistency with historical trajectory	< 65/100

Fail-closed rule: If ANY checkpoint scores below the 65-point block threshold, execution is automatically blocked.

2.3 Disclosure

This is a forensic simulation applied to historical data. OMNIX was not operational during the Terra/LUNA collapse of May 2022. The reconstruction demonstrates what the governance pipeline would have done based on the market conditions that existed at each timestamp.

3. Three-Phase Forensic Results

Phase 1 — Forensic Baseline (T-72 Hours)

Checkpoint	Score	Threshold	Status
CP-0 SIV	88.9/100	65/100	PASS
CP-4 Coherence	77.7/100	65/100	PASS
CP-7 TCV	56.8/100	65/100	FAIL

Governance Decision: WARNING ISSUED

Outcome: CP-0 SIV Warning — Structural Brittleness Detected

Phase 2 — Reverse Interrogation (T-24 Hours)

Checkpoint	Score	Threshold	Status
CP-0 SIV	51.3/100	65/100	FAIL
CP-4 Coherence	28.4/100	65/100	FAIL
CP-7 TCV	39.9/100	65/100	FAIL

Governance Decision: BLOCKED

Outcome: CP-7 TCV Failure — Manufactured Confidence Confirmed

Phase 3 — Sovereign Gate Activation (T-6 Hours)

Checkpoint	Score	Threshold	Status
CP-0 SIV	51.8/100	65/100	FAIL
CP-4 Coherence	23.9/100	65/100	FAIL
CP-7 TCV	46.1/100	65/100	FAIL

Governance Decision: BLOCKED + SIGNED RECEIPT

Outcome: Sovereign Gate Activated — Signed Receipt Issued — Execution Blocked

4. Framework Comparison — Probabilistic vs. Forensic Governance

Dimension	Probabilistic Systems (Industry Standard)	OMNIX (Forensic Governance)
Signal Validation	Checks if data is statistically clean	Forces signal to prove Logical Authenticity first
Confidence Model	Inherits from historical performance (18-month bull = high conf.)	Detects Manufactured Confidence; requires re-earning each cycle
Regime Awareness	Static thresholds, regime-agnostic	HMM continuous estimation; thresholds adapt in real time
Temporal Coherence	Point-in-time validation only	Decision must be consistent with entire historical trajectory (CP-7)
Failure Mode	Executed against LUNA ghost regime; \$40B+ in losses	Blocked at T-6h with signed receipt; capital preserved
Auditability	Post-hoc log analysis only	Immutable PQC-signed receipt before every execution
LUNA Outcome (May 2022)	FAILED — Did not detect Topological Collapse	BLOCKED — Sovereign Gate activated at T-6h

5. Governance Receipt — T-6h BLOCKED Decision

Field	Value
Decision	BLOCKED
Asset	LUNA/USD
Timestamp (UTC)	2022-05-10T18:00:00+00:00
Price at Gate	\$4.6044
CP-0 SIV Score	51.76 / 100
CP-4 Coherence	23.94 / 100
CP-7 TCV Score	46.14 / 100
Block Threshold	65.0 / 100
Regime	CRASH
Failure Reason	TEMPORAL_COHERENCE_VIOLATION + SIGNAL_INTEGRITY_FAILURE
Manufactured Confidence	49.64%
SHA-256 Hash	3e2020dac7bc4e75265b454c98009ddd4fa87d73b4eef603...
Chain Hash	ef62e3c4ac1bcb40d6d3c365e81957a5fdb7bd2b97fe85bf...
PQC Signature	9cb36965e5ef90a93ddf456c1e45010a7fcc11c6eb20fdbb919f...
Receipt Type	FORENSIC_SIMULATION
Framework	OMNIX Decision Governance Infrastructure

Property	Description
Tamper-proof	SHA-256 hash chain prevents modification after issuance
Publicly verifiable	Any party can independently verify the hash chain
Immutable	PQC signature (NIST-standardized) ensures quantum-resistant integrity
Timestamped	Exact moment of governance decision permanently recorded

6. Conclusion — Architectural Certainty

*OMNIX governance checkpoints would have issued a **BLOCKED** decision at T-6h before the Terra/LUNA collapse — 6 hours before the irreversible unwinding began. Capital would have been preserved. The event would have been logged with a cryptographically signed receipt. This is Architectural Certainty.*

7. For Due Diligence Teams

Available Materials

Key Questions This Document Answers

Q: Can OMNIX detect systemic collapses?	Yes — BLOCKED decisions at all three critical timestamps (T-72h, T-24h, T-6h).
Q: How early does OMNIX detect risk?	72h before collapse (WARNING), 24h before (BLOCKED), 6h before (BLOCKED + signed receipt).
Q: Is the governance decision auditable?	Every decision generates a PQC-signed receipt with full checkpoint scores.
Q: What makes OMNIX different?	OMNIX detects Manufactured Confidence and validates authenticity forensically, not statistically.

OMNIX Decision Governance Infrastructure — omnixquantum.net

This document describes a forensic simulation applied to historical market data. OMNIX was not operational during the Terra/LUNA collapse of May 2022. All checkpoint scores were computed by applying the current OMNIX governance pipeline to documented historical price data. This simulation demonstrates architectural capability, not a guarantee of future performance. This document is for informational purposes only and does not constitute financial advice or an offer of securities.
